About us

Mayjoy Group has been specialized in manufacturing and supplying good quality and competitive price various paper processing machines, such as toilet paper rewinding machine, napkin machine, facial tissue machine, pocket paper machine, paper packing machine, automatic paper processing line etc. for over 30 years. Our paper machinery now has been sold to countries all over the world. "Satisfy Customer's Needs in Our Best Ability" is always our final goal. In 2013, we started to explore the international market and our subsidiary company Zhengzhou Mayjoy Import & Export Co., Ltd has been the gold supplier on Alibaba platform for over 5 years.

Company under Mayjoy Group :

Mayjoy International Group Co., Ltd Henan Jin Xu Paper Machinery Co., Ltd. Zhengzhou Mayjoy Import & Export Co., Ltd.

We witness many customers to establish and expand their business in paper industry. Welcome to contact us and start your own business with embossing toilet paper rewinding machine

Sales office Address: No. 61 Nongye Road, Zhengzhou City, Henan Province, China
Factory Address: Shixiang County, Xuchang City, Henan Province, China

Introduction:

The folding embossing machine is used for processing the material bobbin by embossing ,folding,electric counting,cutting into square napkin,automatic embossing folding no need manual folding ,the embossing type can made by customer's need to made different Clear and beautiful Pattern.

Features:

Automatic counting, entire column, convenient for packing; 2. Folding place Positioning reliable,unified shaping size; 3. We can make different specification model by customer's requirement; 4. Steel to wool roller embossing ,the pattern is clear and various; 5. Color printing function is also available

Technical parameter:

Machine Mode	MJN Serial
Unfolding Size	190*190—460*460 mm (also customization available)
Folding type	1/4 (1/6,1/8 folding system also available)
Folded size	95*95-230*230mm
Raw paper Size	≤φ1200
Raw paper Core inner dia	75mm Standard(Other size are available)
Embossing Roller end	Cots,wool roll
Counting System	Pneumatic Counting
Power	4.2KW
Speed	0-150 m/min
Dimensions	3200*1000*1800mm
Weight	890KG
Use of power	Frequency Control ,electyomagnetic governor
Transmission	6 Chains

Sales office Address: No. 61 Nongye Road, Zhengzhou City, Henan Province, China
Factory Address: Shixiang County, Xuchang City, Henan Province, China

Toilet Paper Rewinding Machine

Sales office Address: No. 61 Nongye Road, Zhengzhou City, Henan Province, China
Factory Address: Shixiang County, Xuchang City, Henan Province, China

Zhengzhou Mayjoy Machinery
Tel.: 86 371 5501 5303 Fax: 86 371 5501 5309

Introduction:

Our factory original produce automatic toilet paper rewinder adopting international advanced PLC computer programming technology, and frequency adjustable speed, and electronic brake and the configuration has touch type picture human-computer interface system, latest development free core volume paper forming complex volume system, reached rewind volume effect with core or no core , one machine more with more usage, makes machine in years of market put using can full upgrade, makes the operation more convenient and shortcut, greatly improve the production efficiency.

Features:

1. This model is designed with PLC control system, fully automatic in production process, the function is complete and the production speed is high. The finished rewinding process implements tight first and loose later and different stage loose degree, resolve paper and core apart in the long storage time.
2. It can automatically change the core, spray the glue and seals without stopping the machine and also automatically raise and lower speed when exchanging the core.
3. When change the core, the machine will be tight first and loosen later to avoid dropping off the roll core.
4. Equipped with automatic alarm to indicate filling up of core pipe. The machine will be automatically stopped when there is no core pipes. Automatic alarm for breaking off of paper.
5. Equipped separate tension control for each unwinding jumbo roll.
6. It is convenient to change the feature to produce any other core pipe winding.
7. Left paper remind after sealing of product for convenient use.
8. Jumbo roll stand is installed by pneumatic.
9. Stepless adjustment , every function can independent operation.
10. Three-layer horizontal paper remove shelf, pneumatic type wide belt for paper feeder, each group of original paper shelf has independent tension adjustment device ; point-to-point embossing, pattern is distinct and beautiful, light weight, can be configured according to the user's needs for steel to steel embossing ;inching switch for the traction of the original paper, the operation is simple, safe and practical.

Technical parameter:

Sales office Address: No. 61 Nongye Road, Zhengzhou City, Henan Province, China
Factory Address: Shixiang County, Xuchang City, Henan Province, China

Machine Model	MJT-1092	MJT-1575	MJT-1760	MJT-1880	MJT-2800	MJT-3500
Paper Width (mm)	1300	1800	2000	2200	2800	3500
Capacity (ton/day, 8 hours)	1	1.5	2	2.5	3	3.5
Finished Diameter	φ50~1800mm (Adjustable width and tightness)					
Finish Paper Core	φ30~55mm					
Base Diameter	With 1100mm Standard (Other size are available)					
Jumbo Roll Core Diameter	76mm National standard (Other size are available)					
Process Capability	150~280 M / Min					
Parameter Setting	PLC computer operating system interface					
Back Stand	Standard three layer synchronous transmission					
Perforation Pitch(mm)	2baldes, 150~300mm					
Pneumatic System	The 3 horse air compressor, a minimum pressure of 5kg/cm ² Pa (not included in the quotation, usually customer buy it themselves)					
Power	5.5kw~15kw Stepless variable speed					
Dimensions	6200*2600*800mm~6200*4000*800mm					
Weight	2500kg~8800kg

Introduction:

Automatic box-drawing facial tissue paper machine with embossing is to cut the base paper by knife roller shear, interaction fold into the chain of rectangle tissue. This machine adopts the vacuum adsorption, automatic folding counting function, high speed, folded neatly, easy operation, etc.

Features:

1. The machine adopts vacuum suction, automatic counting, with high speed, accurate number of advantages, is the advanced equipment of box drawing tissues paper production.
2. The machine is equipped with three tension adjustment devices, in order to ensure the dimensional accuracy of the finished folding.
3. The machine comes with fringe embossing and whole flower embossing of two kinds of flower embossing functions so that meet various customers' production requirements.
4. This machine has automatic shutdown function once paper breaks, not only greatly reduce the wastage caused by paper breaks, but also to ensure the safety of the production process.

Machine Model	MJX—2L (450mm)/MJX-4L (850mm)
Product Size	190*200 This is China standard. Other size are available by adjusting the blade
Paper Diameter	φ 1100mm Other size are available
Paper Core Inner Dia	76.2mm Other size are available
Speed	0~100m /Min
Controller	Electromagnetic speed
Embossing Device	Steel to steel embossing
Embossing Roller End	steel roller
Blank Lines	Steel on steel , the independent regulator
Cutting System	Pneumatic point cut

Sales office Address: No. 61 Nongye Road, Zhengzhou City, Henan Province, China
Factory Address: Shixiang County, Xuchang City, Henan Province, China
